The Times.

Latest Telegraphic, Main and New Digest.

Colonel opera is to be the next fashionable craze.

Texas is suffering a water famine and what will happen if the beer gives out?

The English government is bent on opposing the Shah. Oh ditto, John Bull.

The Republicans of San Francisco are moving for reform in their organization. "Turn the rascals out."

It is reported that there will be a falling off in orders for fire city to-night to consider the anti-Chinese crusade question.

A writer in the Nineteenth Century, in Rev. Shaw Lefevre, advocates the same principle for Ireland, with large powers of autonomy," etc. It is unanimously that the Irish want; it is self-rights.

Probably the most forcible method ever devised for presenting a petition to a deliberative body, is that adopted by the soldier Poissro in the French Chamber of Deputies. He fired it in with a bullet.

There's son of Coroner O'Donnell wanted to get married, the old man refused himself upon his ear and ob tained. He probably wanted to be pres ent at the coroner's quest with a large and varied assortment of Chinese lepers for the melting feast.

San's Broadway surface railroad, which was built on a corruptly purchased franchise, is in danger of being confiscated and sold. Good! Let every railroad corporation in the country be served likewise.

The political pot bubbles but feebly as yet. The woods, however, from Saginaw to the City of Bayneliimate, and from the Sierras to the shore of the briny deep, are supposed to be fluently full of candidates for all the orifices to be stopped up at the next election.

A petition has been laid before Judge Toney, asking him to call a Grand Jury to investigate the jail-plans queer case. Judge Cheney says he will do it. If the Supervisors will consent to two and juries in one year. The whole question now turns upon the Supervisors, and there is little doubt but they will order a thorough investigation.

Colonel Superintendent Towne, of the Southern Pacific, talks beautifully about the present railroad situation and the policy of his corporation. He says: "The policy of the Southern Pacific Company is already made manifest, it being our intention to do business so cheaply, expeditiously and satisfactorily for our patrons that they will have no occasion to turn to other lines." How sharp the contrast between this conciliatory language and the tone of the "magnets" towards the public a few years ago! Truly, rail-way competition is a mighty good thing for the people.

Discussion of the project of opening Fort street is again renewed. The object should be approached with caution, and considered well in all its bearings before action is taken. It is the city to say whether that hand some and commanding eminence, First-street hill, shall be razeed, cut through, leveled, or left intact. The obvious objection to cutting through is that, after incurring the heavy expense that would be involved in such a process, and destroying the beauty of the hill, the street would be impracticable for wheeled vehicles on account of the extreme steepness of the grade on Hill in Olive. It is estimated that to cut at the top of the hill would be more than fifty feet deep! Nothing but a cable road would be practicable over such a grade. Beside, while Hill street remains unpaved from First to Courthouse, and while the questions of a single or double grade remain in abeyance, it would be inexpedient and useless to put Fort street through in the manner sought. The problem is somewhat difficult, at best, but by no means impossible of solution. It is perfectly feasible to get Fort and the hill, while it is exceedingly difficult to get through or over it. We think City Surveyor Eaton, if called upon, could devise a serpentine road from the established Olive-street grade around the brow of the hill and ending at Courthouse street—a road with an easy grade, and one that would meet the wants of both the public and private owners alike. This scheme would involve the cutting down of the present unsightly knoll on the Olive street side, leave the summit of the hill undisturbed, and do away with any real necessity for grading Hill street from First to Courthouse, with the attendant high retaining walls, heavy expenses, and difficult ascent. These points are worthy of consideration by the authorities, and officials. The Times respectfully directs the attention of the Board of Public Works and of the people to the subject.

Another Defense of Country Girls.

The Woman's Christian Temperance Union has adopted the following resolution:

Resolved, That the reputation of our shop and factory girls was cruelly assailed by the recent speech in the Senate by Senators Jones of Nevada and Baldwin of Louisiana, in which they, the women of the Woman's Christian Temperance Union, of which they regret that a husband and father should so carelessly of the brave, noble women of this country, of whom are supporting not only themselves, but others.

Resolved, That as it is conceded that the girls of this country and man made the best type of Christian women, believe that the highest type of young woman-hood is often found in the country, and that righteously resent the insinuation that the majority of California girls.

Southern California Insurance Company.

Are money to loan on real estate security at favorable rates of interest. They solicit a share of public patronage in insurance against loss or damage by fire. Office in Bryson block, South Spring street.

Trashed Again.

Jim Wilson, who was arrested night before last by firing his revolver on the streets, was allowed to go on his own recognizance. He failed to show up in court yesterday, so last night he was re-arrested and locked up until some one should furnish the necessary security for his release.

Flower Festival.

All persons interested in the coming Flower Festival are invited to meet at the Temple this afternoon at 3 o'clock. It is to be hoped that there will be a full attendance.

WASHINGTON.

The Eads Ship Railway Project On Its Legs.

EDMUNDS INTRODUCES A GOOD BILL.

Which Allows the President to Retaliate for Discrimination and Checks Importation of Adulterated Food and Drink.

Associated Press Dispatches to The Times.

WASHINGTON, Feb. 25.—Mr. Edmunds introduced in the Senate to-day, a bill providing for the inspection of meats for evaporation, and prohibiting the importation of adulterated articles of food and drink, and authorizing the President to make proclamations in certain cases. The bill gives the President power to retaliate whenever our products are unjustly discriminated against in foreign countries.

A FAVORABLE VOTE FOR EADS.

The Committee on Commerce, of the House, reached a vote upon the Eads Ship Railway scheme yesterday, and decided to report to the House with a favorable recommendation. Those who indorsed this scheme were Regan of Texas, Ch irman of the Committee, Clardy of Missouri, Taraney of Michigan, Bynum of Indiana, Irion of Louisiana, O'Neill of Pennsylvania, Davis of Massachusetts, Weaver of Nebraska and Johnson of New York. Those who voted in the negative were Irish of Georgia, Caldwell of Tennessee, Ferrall of Virginia and Morrow of California.

A substitute for Mr. Reagan's bill to incorporate the Atlantic and Pacific Ship Railway Company, was reported back to the House to-day. The changes of interest made in the original bill by the committee are as follows: A requirement that the railway shall transport a vessel of 4000 tons burden, instead of 3000 tons, before the liability of the government begins; a provision that the obligation of the government shall cease unless the company shall keep the road in good repair, which shall be evidenced by its safely transporting a vessel which, with its cargo, shall weigh not less than 4000 tons; an amendment making lawful currency of the United States, or its equivalent, and in case that Mexican vessels are transported, then Mexican silver dollars receivable for tolls (the origin d bill provided for payment in gold); a provision for a trial before United States courts of controversies arising in this country between the company and its stock holders or the United States; excluding questions arising in Mexico or affecting the company's territorial rights.

CONSIDERING OKLAHOMA.

The House Committee on Territories discussed the Oklahoma Territory bill to-day, and appointed a sub-committee to examine the treaties made with Indian Tribes with a view to ascertaining if there would be any conflict between treaty provisions and the proposed legislation. The committee has directed an adverse report to be made on Representative Townsend's bill to organize the entire Indian Territory into the Territory of Oklahoma.

CABINET MEETING.

The Cabinet meeting to day was attended by all members, except Secretary Whitney. The question of compensation to Chinese residents of Rock Springs, Wyoming for losses sustained by them in riots there last fall, was again considered It is probable that the matter will be brought to the attention of Congress with a recommendation that the sufferers be recompensed for their losses.

ABOUT THE HAWAIIAN TREATY.

Mr. Carter, Hawaiian Minister, said to day in regard to the statement furnished to the Ways and Means Committee by John Searles, jr., about the Hawaiian treaty, that it is nearly four years since Searles visited Hawaii, and that the report which he then signed with the other two Commissioners was considered very favorable to the treaty, and was so mentioned by Secretary Folger in his annual report of 1883 Minister Carter said that the statement that the duties remitted would pay for exports to Hawaii might be made in regard to our trade with almost any other country. One might as well say that duties remitted by us on coffee would pay for all American exports to Brazil. One might as well say that it an bargain he had made a gift for not charging more than he had charged He added that a counter-statement would shortly be made before the Ways and Means Committee by his counsel in regard to the attack upon the treaty as the outgrowth of business jealousy between refiners of New York and San Francisco.

DOLLARS IN THE TREASURY.

The amount of standard dollars in the treasury after, deducting silver certificates in circulation February 20, was $82,589,546, as compared with $67,627,842 in the treasury July 31, 1885

XLIX CONGRESS—FIRST SESSION

Senate.

WASHINGTON, Feb. 25.—The Senate resumed consideration of the bill to provide allotments of land in severalty to Indians. The bill was passed.

The Edmonston Bill was laid before the Senate, and Mr. George continued his remarks in favor of the bill. Brief remarks were also made by Messrs. Edmunds and Hoar.

Mr. Allison suggested an amendment, which he said he would refer at the proper time, providing that, in each State in which there shall be separate schools for white and colored children, the money paid shall be apportioned and paid out for support of such white and colored schools in the proportion that the illiteracy of white and colored persons bear to each other as shown by the census. Mr. Allison thought the bill should be so amended as to be pre cisely what was intended to be, and there should be no room left for doubt to arise when the provisions of the bill come to be applied in practice as to the proportions of money to be applied to white and colored schools respectively

Debate here closed and the Senate adjourned.

WATER FAMINE AT VIENNA.

Jack Frost Puts a Sudden Check on the Supply.

VIENNA, Feb. 25.—This city is suffering from a water famine, and is much excited over the question of water supply. A monopoly of the supply is held by the Municipal Council and water is all brought from the celebrated Hochquelle and Kaiser Runn springs. The quality of the fluid is excellent, and the quantity was ample before the recent enormous growth of the city. Lately, however, the springs have frequently proved inadequate, and much inconvenience resulted. Several private corporations have for years pressed for the privilege of supplying the city with water, which they proposed to bring from the river Danube, whose main stream is two miles from town, but the municipal council has always resisted these attempts. The other day, owing to long-continued frosts, both springs became impeded, and Vienna has been on a short allowance of water ever since. The Council has issued an edict ordering the greatest possible economy in the use of water until the frost releases its hold on the sources of supply. It is now proposed to reserve the water from the springs for drinking purposes, and to draw upon the Danube for a supply for other needs.

SPAIN.

The Disgrace of Young Duke Enrique de Borbon.

MADRID, Feb. 25.—The Supreme Council of War has confirmed the sentence imposed on Don Enrique de Borbon, Duke of Seville and Lieutenant-Colonel af the Regiment of Alburia. This places Don Enrique on the half pay list. His offense was the utterance of disrespectful and abusive language against the Queen Regnant. He attempted to force his way into the presence of the Queen at a time when she had given orders that she would receive no one but Cardinal Benavides It was claimed by the offender's friends that he was under the influence of liquor, but he was on military duty at the palace, and, when repulsed from the Queen's door, slandered her. This subjected him to a court martial. The Borbon family felt the disgrace of the young Duke's conduct so keenly that they offered no interference to the course of military procedure against their relative, who, during the trial, was treated as an ordinary officer. The Duke's father, also named Don Enrique de Borbon, was, it will be remembered, killed (some historians say murdered) by the Duc de Montpensier, father of Mercedes, Alfonso's first wife, in one of the most remarkable duels ever fought. This took place on the artillery grounds, near Madrid, on March 12, 1870, and after each combatant had fired two ineffective shots, and Don Enrique had wasted his third, the Duc de Montpensier took deliberate aim and shot his antagonist through the head, killing him almost instantly.

THE PREWITT TRIAL.

The State's Evidence Testifies—A Bad Character for Powers.

HOLLISTER, Cal., Feb. 25.—In the Prewitt trial to-day Dick Alexander, one of the conspirators who made a confession at the preliminary examination, gave his testimony. It was substantially to the effect that three meetings, attended by from nine to eighteen parties, were held, at which the question of Powers being invited to leave the country or be hanged was discussed, as heretofore reported. He repeated his former testimony. He testified explicitly to the fact of Prewitt's having pointed out where Powers's body lay, and telling him he had killed him; also to the administering of the conspirators oaths and the fact of all joining in the hanging and putting the Vigilante card on the body; he minutely gave all the particulars concerning the meetings and circumstances of the hanging. A rigid cross-examination did not shake his testimony, but brought out the fact that, at the meetings he had heard conspirators give their reasons why Powers was a man of bad character, and dangerous in the community. Among other things, it was stated at the meetings that a settler named Morris had won a lawsuit against Powers, had some horses killed, and deceased was charged with it, although tried and acquitted of the charge that he was accused of killing cattle belonging to a neighbor; of setting fire to Prewett's field; of burning a neighbor's wagon; that he had written rhymes disparaging Prewett and family, and abandoned women of the community, and poisoned his wife and blown up a house in Alameda county. Alexander occupied the stand all day, and his examination will be resumed in the morning.

A DENTAL SHOOTING.

A Jealous Man, a Woman and Her Friend.

ST. LOUIS, Feb. 25.—Dr. Edward H Coates shot and killed Dr. A. B. Keith at the corner of Fourteenth and Pine streets this morning. Both men were dentists, and it is stated that jealousy over Coates's wife has existed between them for a long time.

Coates has been trying for a year past to get a divorce from his wife, but has been unsuccessful. Dr. Keith has in the meantime, been a defender and a sympathizer of Mrs. Coates, and, although he is 65 years of age, has been accused by the lady's husband of improper relations with his wife. Coates has been despondent for some time, and, this morning, announced his intention of drowning himself, and start ed for the river to carry out his purpose, but upon emerging from the house he met Dr. Keith, and, after interchanging some hot words, he accused Dr. Keith of having caused all his unpleasantness, and the latter denied it. A struggle ensued, both men falling to the ground. Upon Keith arising and attempting to walk away, his antagonist drew a revolver from his pocket and discharged it with fatal result.

CORA PEARL.

Her Memoirs Create a New Sensation.

BALTIMORE, Feb. 25.—The memoirs of Cora Pearl, chief of the demi-monde of Paris, have attracted some attention here. She claims to be the daughter of Prof. F. Nicholls Crouch, author of "Kathleen Mouverneen." Crouch was seen this morning and says he does not know whether the woman Cora Pearl is his daughter. He had nine children by his first wife, Miss Lydia Pearson, an English actress, to whom he was married in 1830, at St. Paul's church, Covent Garden, England. Three of the four daughters, Mrs. Mawdsley, now living in Baltimore; Madame Tulbeoque, of Leeds, England; and another one, said to be at present in Paris were by Emma Crouch, second oldest of the quartette, who left her home when a young girl. All of the young ladies were educated in Paris. On returning to England from France, the mother of Prof. Crouch took Emma in charge. Suddenly the young lady left her people under circumstances that were never explained to afterwards in the Crouch family.

A BIG SPORTING EVENT

In the Prospective Meeting of Hagan's and Sullivan.

NEW YORK, Feb. 25.—The Sporting World says: It will be a race worth going miles to see when the California invaders and Dwyer's stable come together. All of them are game and all of them are determined to have what they want or what they think they want. Haggin has a stable numbering close on to one hundred horses, of which nearly seventy are two-year olds. Dwyer's stable numbers forty-two, against twenty-six last year. In some respects, it needs additional force. This is the first year that the big stakes at Coney Island will be run for with $1500 added, and the Coney Island Derby with $2500 added. The total closed with 100 entries and the Derby with 99. In both races all leading Eastern and Western cracks are entered. By Saturday declarations from California, if there should be any, will be in. Then betting will begin in real earnest.

Turbulent Miners.

CONNELLSVILLE, Pa., Feb. 25.—The Socialistic Hungarians caused more trouble in the coke regions this morning. A crowd of them assembled in Broadford and marched to the Summit and, this morning, announced his intention of drowning himself, and start ed for the river to carry out his purpose, but upon emerging from the house he met Dr. Keith, and, after interchanging some hot words, he accused Dr. Keith of having caused all his unpleasantness, and the latter denied it. A struggle ensued, both men falling to the ground. Upon Keith arising and attempting to walk away, his antagonist drew a revolver from his pocket and discharged it with fatal result.

War to the Knife.

TOPEKA, Feb. 25.—Various indications here show that the war resulting from the breaking up of the Transcontinental Association, is more violent than ever. The probabilities are that rates to the Pacific Coast, at least by the Santa Fé route, will be made much lower before they are higher. Travel has considerably fallen off on all the lines in anticipation of this result, and it is not possible to say when the lowest point will be reached in Pacific Coast business.

Hazen Sues for Libel.

NEW YORK, Feb. 25.—Gen. Hazen, chief signal officer, is now suing Geo. Jones, proprietor of the New York Times, to recover $15,000 damages for alleged libel, it being charged that that newspaper published libelous statements concerning plaintiff's character as signal service officer, and also concerning his connection with the recent Arctic expedition.

After Sharp's Railroad.

ALBANY, Feb. 25.—In the Senate to-day a bill was introduced annulling the privileges and franchises of the Broadway surface railway, and providing for the appointment of commissioners to take possession of all its property and sell the same, including its franchise, at public auction.

To Advocate Tariff.

PITTSBURG, Feb. 25.—At a conference of labor leaders held here last evening it was decided to send a representative committee of workingmen to Washington to advocate the interests of tariff before Congress.

SAN FRANCISCO.

The Republican Ward Clubs in Ruction.

A BILLIARD MATCH IN PROGRESS.

Superintendent Towne Interviewed as to the Railroad War—Budget of Court Notes—Anti-Chinese Label.

Associated Press Dispatches to The Times.

SAN FRANCISCO, Feb. 25.—In the case of Asa Fisk vs. Abraham Brocaw, Judge Finn to-day gave judgment for plaintiff. Fisk, in 1881, loaned defendant $500, bearing interest at the rate of 3 per cent. per month, compounded monthly, to secure payment of which Fisk took an insurance policy on Brocaw's life for $3000, paying assessments as they fell due. He sued to foreclose on the policy, and the court gave him judgment for $3316.03, the amount of money advanced, with interest.

THE FORGERS CONFESS.

The preliminary examination of L. Grandi, J. J. Garrity and John Smith, for raising checks obtained from Polak & Co., tobacco merchants of this city was begun to-day. A check for $10, which had been raised to $1550.60, was identified by Arnold Polak, of Polak & Co., from whom it had been obtained, and by F. G. Smith, paying teller of the California Bank. Garrity, one of the defendants, took the stand, and created a sensation by turning State's evidence. He admitted the raising of the checks, and stated that Grandi did all the forging, while he and Smith presented them. Smith corroborated the testimony of Garrity. All of the prisoners were held to answer before the Superior Court, with bail fixed at $5000 each.

THE CHINESE LABEL COMPLICATION.

In answer to Chief Crowly's telegram sent yesterday to Senator Stanford, asking him to make arrangements for the arrest of Ong Tai Duck by the British government at Hong Kong, a reply was received to day that the same had been referred to Secretary Bayard for action. Chief of Police Crowly to-day also received a copy of a letter from Senator Stanford, which was addressed to the latter by Secretary Bayard at Washington, which explains the action of Secretary Bayard in the matter of the extradition of Ong Tai Duck. The letter in part says: "There being no extradition treaty between the United States and Japan, this Government exhausted all its power under international courtesy by asking if Japan would be willing to give up the alleged murderer to agents of the State of California for trial. The Japanese Government answered that, the culprit being a Chinese subject, he could not be given up in the absence of a treaty. Since then application has been made to the British Government to have the fugitive arrested at Hong Kong and held for extradition under the treaty with Great Britain." It would appear from the telegram that the Japanese authorities have found a way out of the difficulty raised by the culprit's nationality and are prepared to surrender him. There is, in the absence of a treaty, no occasion for the intervention of agents of the Federal Government in the transaction. The man is to be delivered, if at all, only to an agent of the State of California.

THE CUT.

Much excitement was created in railroad circles by the announcement that the Atlantic and Pacific, in conjunction with the Atchison, Topeka and Santa Fé, Chicago and Alton, and Pennsylvania Central railroads had reduced the rate of limited tickets to-day to New York to $50, time within which they can be used, ten days. This rate was immediately met by all other railroad agents. Limited tickets to Chicago also came in for a cut and were reduced to $35; unlimited and third-class tickets remain the same as yesterday. The Atlantic and Pacific will refrain from selling unlimited tickets at reduced rates. Much complaint is being made by agents of the roads concerning the sale of unlimited tickets at reduced rates. All urge the withdrawal of such tickets from sale. The sale of limited tickets to-day was reported very lively. All trunk lines between Chicago and New York have followed the Pennsylvania Central into the fight, which the latter company entered to-day.

AN INSURANCE COMPANY ASSORBED.

A meeting of the Directors of the State Investment Insurance Company was held this afternoon to consider a proposition made to the President of the company by the Directors of the Western Insurance Company. The proposition was to the effect that the State Investment Company assume all the assets of the Western, and as same its risks, issuing its own policies in place of those of the Western now outstanding. It was resolved to increase the capital stock to $400,000, double the present capital, and absorb the Western by accepting the proposition. This will wind up the affairs of the Western, and it is thought to be satisfactory to the policy-holders of the Western.

WANTS THE ESTATE.

Suit has been brought against J. L Hatch, of this city, by W. Hinchcliffe, special administrator of the estate of Hannah G. Ingram, to recover improved property bearing a large revenue. Hatch is charged with using undue influence and fraudulent representations, three days before Mrs. Ingram's death, to obtain the deed in question. Plaintiff asks that a receiver be appointed to recover the rents and profits of the property.

THE PARRICIDE.

Timothy Whalen, who killed his father with an axe Sunday, the 14th inst., waived examination in Judge Lawlor's court to-day, and, after the examination of one or two witnesses, who related no new facts, is held to answer without bail. Whalen has apparently entirely recovered from his self-inflicted wounds.

DUNN'S DEFAULT.

Judge Lawlor to-day rendered judgment for plaintiff in the case of Charles Robinson vs. Controller Dunn, for $60 and costs. This is a test case brought by the messengers and clerks of the last Legislature, who claimed extra pay from the State, and were refused by the Controller. Dunn failed to appear in the case, and judgment was given by default. The entire claims amount to about $3000.

A BILLIARD MATCH.

The billiard match between Harvey McKenna of Detroit and Alonzo Morris of this city began last night. The match is 6000 points, French caroms, 1500 points a night, for $1000 a side. Ben F. Sayler acts as referee. McKenna won the first game last night, making 1500 points to 1288 for Morris. McKenna's highest run, 239.

The second game of the McKenna-Morris billiard match played to-night was won by Morris, who made 1,612 points; McKenna, 386; twenty-one innings. Morris's highest run, 505; McKenna, 170. Total score for the two nights; Morris, 3,000; McKenna, 1,886

INCREASED WINE SHIPMENTS.

The Merchant to-morrow will give statistics of exports of California wine. These will show a total export for 1885 of nearly four and a half million gallons, or nearly one million gallons more than for 1884.

WANT REFORM IN THE ORGANIZATION.

The Republican Alliance Club adopted resolutions denouncing the recent action of disorderly persons who packed the district Republican clubs and prevented members from discharging their duties. Republican citizens are called upon to meet in their respective districts and organize clubs in the interest of good government and decency, thereby securing the election of reputable citizens as delegates to coming State and municipal conventions.

JOHNNY COMES MARCHING HOME.

A. N. Towne and J. C. Stubbs, of the Southern Pacific Company, who attended the recent meeting of the Trans-continental Association, at New York, returned to its disruption, returned to-day.

In an interview with an Associated Press representative, this evening, Mr Towne stated that he knew little or nothing of the railroad situation here, having only such information as he received over the wires during his trip across the continent. When asked what the outlook was from his point of view, Mr. Towne said: "There is great demoralization of rates, which will necessarily continue on all overland lines, and will also affect, more or less, the many branches of all main lines. This will continue until the better judgment of wise men prevails. It is utterly impossible to tell, or even imagine, when that time will come." When asked what the future course of the Company will be, Mr. Towne replied: "The policy of the Southern Pacific Company is already made manifest, it being our intention to do business so cheaply, expeditiously and satisfactorily for our patrons that they will have no occasion to turn to other lines. Low rates stimulate the movement of freight to the Atlantic seaboard, and to the interior. East of the Rocky Mountains passengers are taking advantage of the greatly reduced rates, and we are confidently looking forward to increased traffic sufficient to keep up our earnings."

CLUB MEETING BROKEN UP.

Republican Club No. 1 of the Thirty-fifth Assembly District, which met at Iona Hall to-night, was compelled to adjourn without transacting any business. A rival faction, which, it is stated, is organized for the object of bringing the club system into disrepute, entered the hall and interfered with the proceedings until a general row ensued and the meeting broke up.

THE STAMP DID IT.

J. S. Enos, United States Commissioner of the Bureau of Labor, has completed his investigations into the boot and shoe trade in this city, and submitted his report to a meeting of boot and shoemakers of the White Labor League to-night. After reviewing the business in a general way, he says: "A large number of Chinese hands have been dis charged by white manufacturers, and the business of Chinese manufacturers has decreased and is decreasing very rapidly. All this has been derived from the issuance and use of the stamp. But I would suggest the propriety of the League, in connection with manufacturers and dealers, of having enacted, at the next meeting of the Legislature, a proper stamp law, compelling the use of a stamp by all manufacturers, designating what kind of labor was used in the manufacture of goods made by them and containing a penal clause in case of violation of the law."

FRANCE.

A Crank Breaks Out in the Chamber of Deputies.

PARIS, Feb. 25.—A new kind of sensation was made in the Chamber of Deputies this afternoon. A strange man in one of the galleries arose excitedly, drew a revolver, fired it twice with a downward aim, and then coolly threw a letter toward Clemenceau. The man was quickly seized and hurried out by the police. When the excitement had subsided, a flattened bullet was found at the feet of the President of the Chamber. The prisoner said he was a soldier, who had been so ill treated by his superiors and ignored by the officers of justice, that he resorted to the desperate expedient of creating a sensation in the Chamber of Deputies in order to secure attention to his grievance. The prisoner gave his name as P. serre, and said he was an officer in the French army. He asserted that the letter which he threw towards Clemenceau contained an offer to give the government the names of the be traitors of Metz.

A SON OF THE O'DONNELL.

He Carries the Day and Gets His Girl.

SANTA CRUZ, Cal., Feb. 25.—George, son of Coroner O'Donnell, of San Francisco, procured a license to get married to Miss Vera Wilcox of San José. Some one telegraphed to the Coroner at San Francisco, who immediately sent a reply ordering the marriage stopped, and said he would arrive by the noon train. To-day George got wind of the affair, procured a saddle horse and went to Felton, hoping to meet the bride off. However, another dispatch was sent to the Coroner, apprising him of his son's intention. When the train pulled up at Felton young O'Donnell was astonished to see his father alighting from the train. After introductions the party went over to Felton, where the father finally gave his consent. The bridal party, with the exception of the Coroner, came on to Santa Cruz where George and Vera were married by Rev. J. W. Bryant, at the Pacific Ocean House.

CROOK AND GERONIMO.

Failure of a "Big Talk"—The Scalper Goes Back to His Camp.

EL PASO, TEX., Feb. 25.—Word has just been received here of a meeting between Gen. Crook and Geronimo at Langs, situated seventy-eight miles southwest of Deming. The report states that the chief and five bucks held a consultation and asked for permission to return to their reservation peaceably. Crook refused, demanding unconditional surrender. Geronimo refused to give himself up and, after consultation, left for his camp. Chief Nana and eight bucks still remain as hostages. Geronimo is reported to have ninety bucks, besides women and children, with him. No attempt has been made to follow him, and it is not known what his movements will be.

American Opera.

NEW YORK, Feb. 25.—At a business meeting of the stockholders of the American Opera Company was held at the National Conservatory of Music, 126 E. Seventeenth street, this evening. Great enthusiasm in the purpose to give the opera in English and by native artists characterized the meeting, while abundant indications were offered that the new enterprise is already assured of financial success. A report was presented showing that responsible parties in leading cities of the country have asked for contracts for operas at fixed dates, extending for a year from the end of this season. The drafting of these contracts and forming definite plans for the next two years, and the election of permanent officers of the company, were referred to a special committee to report at an adjourned meeting.

Confession of a Murderer.

MULLARKEAS, Mex., Feb. 25.—Samuel Reed, a deserter from the Eighth United States Cavalry, who was implicated in the murder of a rich Jew named Black, made a confession yesterday, giving full particulars of the crime. He says that Samuel Williams, also a deserter from the cavalry, struck Black with a thick piece of iron and then assaulted him with a knife. They got but little money, the greater part being in the safe, which they overlooked. Williams will probably be taken out by the authorities and shot in expiation of his crime.

An Ohio Boggle.

CINCINNATI, Feb. 25.—The Sergeant-at-Arms of the Ohio House of Representatives arrested Daniel J. Dalton to-day for refusing to go to Columbus with returns of precinct "A," Fourth Ward. Dalton said he was unable to comply with the order of the House Committee because the Senate Committee still holds the returns. His attorney applied to Judge Robertson for a writ of habeas corpus, and the Court immediately released Dalton on his own recognizance in the sum of $500, and appointed Wednesday next for the hearing of the case.

Ran the Chinamen Off.

MARYSVILLE, Cal., Feb. 25.—News reached here to-day that, about 1 o'clock this morning a body of masked men from Wheatland compelled the Chinese on three ranches near Wheatland to leave their sleeping quarters, and marched them to Wheatland, where they were turned loose. The ranches visited were H. Roddan's, Mrs. Fogg's and C. D Wood's. At the last place the Chinese quarters were fired and destroyed with all their contents.

The Pisceria Digging.

Work is going on steadily in A. Smith's placers at Pisceria, four miles east of Newhall. Seven men are engaged in the work, and a gratifying amount of the yellow scales is lodging along the riffles of the sluice-boxes. A couple of Boston capitalists are making propositions to buy the Smith place and work the gravel for all there is in it. Work on the claim above him is being pushed, and as soon as the necessary preliminaries are attended to, the pay-dirt up there will begin to migrate down the tail-race.

FOREIGN.

English Merchants Against Home Rule.

A BUDGET OF POLITICAL GOSSIP.

Parnellites Claim the Call on Sir Randolph Churchill—Gladstone's Policy Indirectly Announced—News.

Associated Press Dispatches to The Times.

LONDON, Feb. 25.—The Associated Chambers of Commerce, which have been in session here for the past three days, to-day adopted by a unanimous vote the resolution declaring that the grant of Home Rule to Ireland would prove disastrous to the trade of both Ireland and Great Britain. This is the resolution offered by the Dublin Chamber of Commerce and seconded by the Glasgow Chamber.

EMANCIPATE LABOR.

The Socialist members of the Chamber of Deputies joined in sending a telegram to "British workmen" in the House of Commons, proposing a joint international movement in the interest of laboring men. The main objects of the proposed movement are to be the securing of a reduction of hours of labor, improvement in the sanitary condition of workshops, proper limits to work obtained of women and minors, and absolute prohibition against allowing children of either sex under fourteen years of age to work at all in shops or factories. The telegram suggests that British workmen join those of France in inviting the workmen of America and Europe to send delegates to a congress to be held next September in some place yet to be designated for the purpose of discussing means to "emancipate the workmen of all countries."

GENERAL ENGLISH NEWS.

Howard Vincent, member of Parliament for Sheffield, has been offered the office of Chief Police Commissioner of the city of London. Mr. Vincent once held the office of Director of Criminal Investigation.

Mr. Childers, Home Secretary, will introduce in the House of Commons to-morrow a bill to compensate sufferers by the recent riot in London.

Burns, Hyndmans, Champion and Williams have subpœnaed ex-Chief Commissioner of Police Henderson to appear as a witness next Saturday, when their case is to be called for a final hearing. They expect to obtain from Mr. Henderson testimony tending to show that the Trafalgar Square slots owed their start and progress more to the inefficiency of the police than to anything in the speeches of the orators of the day.

TO SUPPRESS THE SHAH.

The government has approved Lord Dufferin's request that a strong expedition be sent against the Shah. The troops forming the expedition will leave Madras on March 7. The British commissioners in Burmah are authorized to secure the submission of chiefs either by bribing or by fighting them.

HOME RULE TALK.

The reports that the Parnellites possess compromising letters from Lord Randolph Churchill, pledging himself in favor of home rule, are declared to be untrue. Churchill, it is asserted, never committed his offers to writing. The Parnellites assert that Churchill had personal interviews with Irish leaders, and offered them home rule. Shaw Lefevre, ex-Postmaster-General, in an article in the Nineteenth Century, advocates the federal principle for Ireland, with large powers of autonomy, retaining representation in the Imperial Parliament. He indicates that this is Mr. Gladstone's scheme.

Entered at the Los Angeles Postoffice as second class matter.

The Times.

ENLARGED SHEET

FRIDAY, FEBRUARY 26, 1886.

COL. CHARLES W. WOOLLY, a prominent Cincinnati Democrat, makes the statement that nineteen out of twenty of the Democrats appointed to office on the recommendation of Senator Payne should be in the penitentiary. Col. Woolly seems to be earnest in his opinions about Ohio political affairs. He recently telegraphed from St. Augustine, Florida, to Governor Forster of Ohio in reference to appearing as a witness before an investigating committee at Columbus as follows: "I am here sick, but able to do duty as you may require. I think the duty due to either branch of the Legislature of Ohio. I would prefer to answer questions from here, yet am willing to go under fire when the Legislature may require me to do so. I cannot be used politically. If necessary take your militia and drive the Cincinnati thieves into the river. Three hundred thousand Democrats in Ohio will sustain you. The Mayor of Cincinnati must have your elevated views in order that our city may be rescued from murderers, thugs and convicts. This dispatch goes with great respect to you, and without limit."

THE TIMES heartily indorses the following on the short-campaign discussion, taken from the columns of the San José Mercury: "The practical good sense for which Mr. Boruck, of the Spirit of the Times, has shown on many occasions of late is distinguished, leads him to suggest to the Republican State Central Committee that they arrange for a "short, sharp and decisive" campaign. Sixty days is enough for all legitimate uses of a political campaign. It gives time enough for a thorough canvass, while if the work of speech-making and parading is prolonged beyond that period, it simply amounts to wasted energy. Of late years the experience of both parties has resulted in a conviction that every day spent beyond the period named in marshaling the hosts of freedom is wasted effort and a weariness to the flesh. Brother Boruck is right, and we hope the State Committee will follow his suggestion."

ONE of them is thus foreshadowed—one of the new evening papers that is about to be projected against the lurid journalistic sky of Los Angeles. The information comes through the San Diego Union:

It is reported that Los Angeles is to have a new daily of the Democratic persuasion. A distinguished and wealthy politician is said to hold the financial lever that is to lift the new enterprise into being. The new paper is to contain less dictionary but more sense.

Here appears to be a "reference to allusion" that may or may not have a flamboyant meaning.

UNITED STATES SENATOR VEST, the alleged Missouri statesman, says that he paid $1,000 in cash for his $500,000 in telephone stock. This is an humiliating confession. It shows the narrowness of his business capacity. While he paid money for his stock certificates, the speculators who issued them were giving them away very "fluently," as Sunset Cox said, to everybody else. At the same time, to pay so little for so much did not effectually divest the transaction of its scandalous appearance and character. Vest should pull himself down.

CHICAGO JOURNAL: Attorney General Garland says that he has read nothing and will read nothing contained in the newspapers about the telephone scandal, and that he cares nothing about what they contain, except that he thinks it an ungentlemanly way of treating a Cabinet officer. "I hate to hear people talk behind one's back," said the individual who had just "sneaked a coat" from the front of a clothing store, and was running down street, with the people yelling "Stop, thief!" in his ear.

FORTY years ago workmen in a marble pit, near Woodbury, N. J., laid bare part of the petrified remains of a gigantic antediluvian lizard-like creature, but a heavy rainstorm, which caused them to desist from further explorations, buried the great body beneath a mass of earth. Now the search for the saurian is to be resumed, and a number of scientific gentlemen volunteer to share the expense with the owners of the farm.

GEO. WM. CURTIS says: "The course of the administration concerning Attorney-General Garland fills him with pain." We advise Mr. Curtis to buy a bottle of Ohio Payne-killer, put it under his Mugwumpian vest, and then pull the same down. A Mugwump out of sorts with the Democratic administration is a spectacle to make eunuchs weep.

"TWENTY years ago," says Henry Bergh, speaking of the changed attitude of the public towards the society with which his name is identified, "twenty years ago I had trouble to get $5, but only a few nights ago my doorbell rang, and I was handed a check for $25,000 from H. B. Claflin's estate."

CINCINNATI TIMES-STAR: "Attorney General Garland assures a friend that he 'will not resign under fire.'" Then he will be swept away, for the fire is long, hot and point-blank—by file, by platoon, in volleys and at will. Garland must go.

MRS. CRAWFORD has sought seclusion in Italy. Sir Charles Dilke has sought seclusion in the newspapers. The one was guilty, the other innocent, you know. Mighty curious!

WHEN the President refuses to respond to the Senate's calls for information on any subject, the question naturally suggests itself, "What is he afraid or ashamed of?"

SAM JONES, being asked if he studied his sermons, replied: "Not at all. I just knock the bung out and let nature gut her caper."

NEIGHBORHOOD NEWS.

ALHAMBRA—SAN GABRIEL.

BUDGET DE STEPHANY.
(Correspondence of the TIMES.)

SAN GABRIEL, Feb. 25.—The entertainment given last week by the A. O. U. W. and the Sans Soucis was a financial success.

A very pleasant social was given at the rectory last Monday evening. *The Loan of a Lover* was well rendered. Good music, pleasant company and refreshments caused those present to pass a pleasant evening.

Mrs. Norton has resigned her position as manager of the telephone office at San Gabriel.

Mr. and Mrs. L. J. Rose, jr., left last Tuesday on a visit to San Francisco.

C. F. Fargo, Esq., returned to San Gabriel last Wednesday.

Alhambra ladies are taking measures to insure a fine display from that locality at the next flower show.

Roadmaster Page has instituted a test suit on the question of collecting a servant's road tax from an employer. Mr. Shorb is the defendant.

A man sentenced to pay a fine, in the San Gabriel Justice's Court the other day, wanted to give his title to a lot in the cemetery as security.

The Episcopal graveyard has been inclosed by a neat fence.

C. Garribaldi, the San Gabriel merchant, has built a neat building at Lamanda.

Dr. Peebles is about to remove to Los Angeles.

What would San Gabriel orange shippers do if they could not get Chinese help? Go a little slow with the boycott, gentlemen of the Trades Union, or else furnish us competent white labor.

An Alhambra lady has succeeded in propagating a hybridized La Marque rose, which has a pink center. It is very beautiful.

Nowhere else on the Pacific coast can such an aggregation of oranges be seen as at San Gabriel depot. Four-horse teams from Shorb's, Rose's, Chapman's, Titus's, Winston's and other ranches, are constantly going and coming, and the depot inside and out is a solid mass of orange boxes.

Capt. F. E. Gray is pushing orchardists up on the white scale question. In several orchards where it had been cleaned out by hard work it is back again as strong as ever. Fruit growers whose places have been free from it thus far, should demand a rigorous execution of the law. If some of the orchardists who do not try to keep it down should get into Bro. Holton's clutches, they are liable to regret their inaction. O. A. S.

WILMINGTON.

CAPT. JARGSTORF'S DEATH.
Correspondence of the TIMES.

WILMINGTON, Feb. 25.—The death of Captain "Chris." Jargstorf takes from our community a man universally esteemed and regretted. His demise, though sudden at the last, was not wholly unexpected, as he had been ill for some weeks. He partook of the midday meal with his family on Saturday last, was taken suddenly and violently ill about 4 o'clock in the afternoon, and expired a little after midnight of the same day. The immediate cause of his death was some affection or disease of the heart, and the more remote one the exposure and toil incident to his profession. The funeral was largely attended at the Presbyterian church, the Rev. Mr. Weller officiating. The societies of I. O. O. F. and A. U. W., of which deceased was a member, attended, and the ritual at the grave was that of the Odd Fellows. Capt. Jargstorf has been a resident of Wilmington several years. He was formerly master of the steamer Los Angeles, of the dispatch steamer of the same name belonging to the Wilmington Transportation Company. He leaves a family of five children, with his wife comfortably provided for.

The social given by the ladies of the Episcopal church last Friday evening, was largely attended, and an attractive musical and literary programme was rendered in their usual good style, followed by refreshments, etc.

The Rev. Morgan, of the Catholic church, a new comer, has bought the Yerxa, formerly the Bixby place, and is making extensive additions and improvements. An addition is also talked of to the Catholic church building which will make it about one half as large again. Others, of which there are some three hundred.

Ramon Sepulveda with his road makers is at work on our streets, and Third and Canal streets are now fully graded, each from its terminus to their intersection.

SUB.

COMPTON.

ACCIDENT—IMPROVEMENTS—VARIOUS ITEMS.
Correspondence of the TIMES.

COMPTON, Feb. 23.—There is no big boom going on here, nor any excitement of any kind, but we are moving on just the same.

The frame for our new $1500 schoolhouse is up, and the siding is now being put on. When this is finished it will add considerably to the appearance of our little town.

Steps have already been taken to enlarge the M. E. Church, and building a tower; a long needed improvement.

A young son of John Morton was badly scalded, a few days since, by a teapot being tipped over on him.

William Leonard had a colt stung by bees, which will probably die from the effects of the stings.

Green Davidson has purchased the blacksmith shop formerly owned by Arthur & Cummins.

The Division of the Sons of Temperance, No. 345 starts in with thirty charter members. It is expected that several more will come in next Tuesday evening's meeting at Odd Fellows' Hall. The charter will remain open until then.

The following officers were installed for the quarter: For W. P., W. B. Steele; W. A., Eva Walton; W. S., G. A. Millard; W. A., Miss Mary Whaley; W. F. S., Frank Walton, W. Chaplain, Dr. Whaley; W. T., C. Berge; W. C. J., L. Stewart; W. A. C., Miss L. B. Palmer; I. S., Miss Mary Walton; O. S., Geo. Palmer; P. W. P., J. O. Damon.

Considerable work is being done in way of improving and ornamenting the homes of our people.

There is an anti-Chinese petition in circulation here. A long list of names has been added, and more wanted. It can be seen at Geo. Haylock's store.

There is another white laundry started here, conducted by white women. It is hoped that it will give satisfaction, and receive a liberal patronage.

The new bridge across the San Gabriel river is finished, in a good bridge, and a very much needed, as this is the main road connecting us with Downey, Artesia and Norwalk. G. A. M.

LETTERS FROM THE PEOPLE.

[This is the TIMES-MIRROR'S Public Forum. Those who would stand thereon must first give the editor their real names and be responsible for their opinions and statements. Cultivate brevity, clearness of style and timeliness; write plainly and on live topics, and use one side of the sheet only. Every contribution received by the editor is patiently and impartially considered, but we do not, of course, undertake to print everything sent us.]

The Lash for Liars.

To the Editor of the Times—SIR: I noticed in your issue of the 7th an article from "A Mother;" also one from "Anxious Father." Now, while I would indorse both, I would suggest a remedy against the vile and abominable practice of concocting scandal and peddling it out to any and every one they meet—an evil that exists and is practiced by some that hold themselves far above the common people, but whose souls are as low and black as they would make those of their victims. Now, I would unearth the old-time whipping-post and cat-o'-nine-tails. Then if anyone dare defame the name of a fellow-being—let them be male or female—cause them to receive not less than twenty stripes on the bare back, and see if our moral atmosphere can't be made clearer. Now, I will subscribe $15 for such an institution.

A FRIEND TO HUMANITY.

A Warm Defense of Shop Girls.

To the Editor of the Times—SIR: There are many who appreciate your kindness in offering the people a people's column, where right can have a chance against might. And there are many good words spoken for you which you never hear, because you have the pluck to stand for right, no matter who it hits.

The shop girl has a right to speak, and for one, I am glad she is given a chance to speak. Yes, "Shop Girl," you have sympathizers, and it is a shame to our nation that's being calling himself a man and a citizen should stoop so low as to use such dirty language in regard to our honest young women, who have the independence about them to strike out in the world for themselves. Col. Howard has shown his true nature. " " " Give us your hand, "Shop Girl."

A HUSBAND OF A COUNTRY GIRL.

The New Play.

Sunday World, S. F.)

We hear that a new play is soon to be produced under the title of *The Political Boss*. It will be a howling farce, in which Boss Bilkley asks: "What is greater than the earth?" To which Boss Huggins replies: "Your gall, if you could only realize on it."

NOTES AND COMMENTS.

The New York bookkeepers have formed a union.

The Irish islanders at Innisboffin are living on seaweed.

A pair of steers at Uxbridge have a trotting record of 3:08.

An Augusta, Me., lady has ordered a set of false teeth for her pony.

Labouchere has coined the word "interviewee"—a person interviewed by a reporter.

Mrs. Tilton is in Chicago, living with her daughter and looking after a grandchild.

Elephants are growing so scarce in India that it is found necessary to protect them by law.

Smallpox at a point in Mexico, a few miles south of Cotulla, Tex., is frightening the border.

The Bell Telephone rents in New York city last year were $2,000,000 on an investment of $600,000.

A Des Moines (Iowa) man canvassed the city the other day for funds with which to push his suit for divorce.

The bank of France is the largest single holder of silver in the world. Its shares go up and down with the price of silver.

Editor Stead (Pall Mall Gazette) declares, in concluding the published story of his imprisonment: "Never had I a happier lot than the two months I spent in happy Holloway."

Two Women.

One's face with love was all aglow,
And in her arms she bore a child;
Her dress was simple, but for show
And sweet she smiled.

The other had a face like stone;
A petted "pug" was in her arms;
Rich jewels on her person shone—
Her only charms.

—Wm. S. Lord in Chicago Current.

SHIP BELVEDERE.

Now Discharging Two Thousand Tons of Wellington Coal at San Pedro. Direct from the Mines—Reduced Rates

For wholesale and retail quantities. This superior coal has no equal in this market, and is guaranteed to give better results and greater satisfaction for the money than any other class of fuel used. It can be used in any ordinary grate or cook stove, and will outlast two cords of the best stove wood. Special rates will be given for carload lots and over delivered on the line of the S. P. R. R. For sale at all of the principal retail coal yards in the city and county. Ask your dealer for it.

WALTER S. MAXWELL,
Wholesale and retail dealer, 30 Court street, Telephone 83. Yard: Corner Alameda and Jackson Streets, Telephone 515.

A Sensible Move at McDonell's Drug Store, 371 North Main Street.

The enormous profit usually realized by the retail drug business is an impediment on the buying public, and is far in excess of Eastern prices. The purest drugs can and should be sold as low as in Chicago or New York. For instance, we will sell you—

One pound best gum camphor, 35 cents—regular price, 60 cents.

One bottle Hirgt's cologne, 15 cents—regular price, 25 cents.

One cake Colgate's cashmere bouget soap, 25 cents—regular price, 35 cents.

Our prices for everything else are all as low as in the East.

Prescriptions compounded by experts only, and 400 per cent. profit is not charged.

Remember! McDONELL,
The Druggist.

Open for Business to All Points.

The California Southern Railroad Company has established an office at No. 230 North Main street, for the transaction of freight and passenger business over its line and its connections, the Atlantic and Pacific and the Atchison, Topeka and Santa Fe railroads. By this route through Pullman sleepers start direct from Los Angeles and berths may be secured by application at this office.

Round trip tickets between Los Angeles, San Diego, Colton, San Bernardino, Riverside and Barstow may be had at reduced rates.

For further information on freight or passenger business apply to.

WILLIAMSON DUNN,
General Agent.

CHAS. T. P. ROSS,
Ticket Agent.

USE QUEEN LILY SOAP.

Guaranteed to Wash Without Rubbing.

The best proof that the Queen Lily Soap does all we claim for it is in the good results it is producing. Each purchaser becomes its friend, and recommends it to others. Its use is rapidly increasing, because they find it saves labor, time and money. The Queen Lily soap is unsurpassed as a cleanser, and is free from all injurious substances. The Queen Lily soap in appearance is neat and attractive, and in style of packing and convenience of the consumer. The Queen Lily soap is unequaled for the laundry. The entire absence of all caustic or chemicals renders it necessary, as wisely injurious and dangerous to the hands, liable to produce chronic inflammation of the skin, are often substituted for the Queen Lily, because they put a larger profit.

The price of the Queen Lily is as low as consistent with the cost of making such a high grade of pure soap. The price, compared to the quantity and the value of the soap, makes it the cheapest soap for every household and for every use.

Ladies have already to insist upon having the Queen Lily, remembering that if any substitute is offered it is to their advantage of the seller.

The Queen Lily is the finest soap known for laundry and general household use. It is made of vegetable oils, and everything used in its manufacture is of the purest and the best, so it is absolutely pure.

Ladies will find this soap especially adapted for washing laces, infants' clothing, silk hose, cleaning gloves and all articles of fine texture and delicate color, and for the invalid seems about the lowest that daily care requiring the use of soap that is above the ordinary in quality.

For the bath, toilet or nursery it is preferred to most of the soap sold for toilet use, and the more powerful and much more pleasant and effective, and possessing all the desirable qualities of the finest unadulterated White Castile Soap. Keep only

M. Save was arrested yesterday for carrying on the laundry business without license.

The rope-walking feller drew another crowd yesterday afternoon. He has taken down his rope.

Helen Lou, the seven-year-old daughter of Mrs. Josephine Peel Campbell, died yesterday.

Council will hold a special meeting this evening to consider the city water rates and gas rates.

Filed in the Recorder's Office yesterday: 24 deeds, 13 mortgages, 18 satisfactions, 4 marriage licenses and 7 miscellaneous papers.

The pupils of the Los Angeles College give an entertainment in honor of the birthday of the poet Longfellow this afternoon, commencing at 2 o'clock.

Gen. John R. Brierly and a cloud of other witnesses from San Pedro were in town yesterday, in re the case of the people, David Weldt, and Capt. Jann's frontispiece.

The new transfer steamer Falcon, which has been building in San Francisco for the Wilmington Transportation Company, was expected to arrive at San Pedro yesterday.

Marriage licenses were issued yesterday to the following: W. F. Ball and N. P. Chard; J. S. McCray and O. Cole, J. C. Davison and Mary Condray, O. Ross Borrington and Bessie B. Grant.

The canvas awning in front of Jacoby Bros.'s clothing store, junction of Main and Spring streets, caught fire yesterday afternoon, causing a small amount of excitation. The blaze was soon extinguished.

The somewhat noted case of Baab vs. San Gabriel Valley Railroad Company, involving right of way across plaintiff's (Baab's) property at Pasadena, came up before Judge Brunson yesterday and the plaintiff was non-suited.

The Sale at Pasadena Highlands.

The auction sale at Pasadena Highlands yesterday, J. M. Bachelor & Co., auctioneers, was a pronounced success. Prices averaged $400 per acre; a good price, considering the distance from the thickly settled portion of the valley.

The owner accomplishes the purpose of obtaining a number of new villa residences that eventually enhances his surrounding property. The purchasers did well, considering the conveniences afforded and the beautiful surroundings. Property in this neighborhood must rapidly increase in value for residence purposes, particularly after the completion of the new Raymond Hotel.

Basket Picnic.

Mothers, pack your basket lunch and take the children on a Saturday or Sunday to Lamanda Park, on the San Gabriel Valley Railroad. A fine grove—"the green grass growing all around"—nature in her most inviting mood. A good time and rosy cheeks, youthful portion. If so, may we offer every week "a hungry return of the day?" Round trip, 60 cents; children half fare.

Auction at Pasadena.

The trustees of schools in Pasadena will sell at public auction, for cash, on Saturday, the 6th day of March, that fine business block of 24 lots in the very center of Pasadena. Take the 8:45 train, regular excursion, by the Los Angeles, and San Gabriel Valley Railroad.

Covina.

Persons who wish to get choice fruit lands with an abundant and never failing supply of water for irrigation, should address J. S. Phillips, Covina, Citrus P. O., Cal. Prices are less than half what is asked elsewhere. This property is in the upper San Gabriel valley.

MANUFACTURERS' ASSOCIATION.

An Interesting Meeting Held Last Evening.

The regular meeting of the Manufacturers' Association was held at the rooms last evening, having been postponed a week. Owing to insufficient notice, there was but a small attendance, but the meeting was spirited and interesting.

E. A. Harisburn, President and Treasurer of the Cable Flax Mills, Schachticoke, N. Y., was introduced, and spoke very intelligently as to the industry in which he is interested, and its need of tariff protection. He said, in effect:

We have been for twenty years manufacturing flax and hemp yarns and twines for all purposes. We began with a capacity of 150 pounds daily, and now average 7000 pounds daily. That is a pretty good production, but a mere pittance of the demand. There is imported into this country annually $30,000,000 worth of that class of goods, nearly all of which could be manufactured at home, with proper protection. But Dundee and Belfast are too strong at Washington for us. The free-traders say there is no linen manufacture in the United States, but the annual product amounts to $10,000,000, all the same, and the same grade of goods is made as perfectly in New York, New Jersey and Pennsylvania as anywhere abroad.

The English linen makers are coming over here, driven out by French and German competition. Marshall's folks from Leeds are setting up their works at Kearney, near Newark, N. J. Enoch, Germany and France have a tariff on these goods, and the English cannot compete with them. So, flax raising and spinning have practically ceased in Leeds, the oldest flax emporium in England, where used to raise vast quantities that brought £120 a ton.

The chief danger before you who are trying to establish manufactures is the free trade spirit now rampant in Washington. A was in Louisiana last Saturday, and speaking with a merchant there who has a sugar and molasses plantation, the supplies for which cost him $40,000 last year. He told me that if this Morrison bill passed, he couldn't do a thing with his plantation. And he is only a sample case. That law would injure nearly, if not quite, every State in the Union. Some heavy articles, and some which will not bear transportation, could still be manufactured under free trade, but the great bulk of manufactures in this country would have to stop. When you reduce the price of labor, you reduce the prosperity of the country. We have had in our establishment, to make three cuts of 10 per cent. each on wages since the tariff reduction of 1883; and still are paying three times as much, on the whole range of labor—and in some cases four times as much—as our competitors in Belfast. The children who are our "doffers" get 35 and 40 cents a day. Their work is very light, and not continuous. The spinners get 81 cents—before the tariff reduction they got $1.10. Our ordinary laborers get $1.05, and the skilled ones $2 per day. Our reelers, among whom are a great many intelligent women, get 63 cents. Of course these are low wages; and it is only by a whole family's working that they make a living. The hours are from 6:36 a. m. till noon, and from 12:45 to 6:30 p. m., except on Saturdays, when we close down at 3. The children go to night-school.

The official source of the free-trade influence is in the Cobden Club, of London, which includes members of Parliament and other prominent Britons, and about 130 Americans, I am sorry to say. The object is to disseminate free-trade literature, and they are putting it into this country by the carload; and we have teachers in our colleges and schools instructing our children how to starve us out. The English free-trade theory amounts to just this: "Buy your goods in England." We have little literature on the protective, the American side, but we need it. For this purpose the American Protective Tariff League is being organized, with headquarters in New York. It has 21 directors, and will have a Vice-President in every State and a representative in every county in the country. Is is entirely non-political, and there are probably as many Democrats as Republicans among the directors.

As to California's capacity for producing flax, I do not know. The finest flax I ever saw, outside of Ireland and Holland, was raised in Oregon.

CHEAP FUEL.

F. F. Adams, Mayor of Erie, Pa., was introduced and said, in brief, that he had been engaged for 15 years in the manufacture of clothes-wringers, ladders, and other household articles; beginning in a small way and now producing $400,000 worth a year. He did not need protection for his business, as that class of goods is but little manufactured abroad. But he believed the general interests of the country demanded a protective tariff. The fact stated in his factory: The coal which costs $1.90 a ton there! He has three gas wells which suffice for lighting; and natural gas has been piped to Erie from a distance of 100 miles, and it is expected by this means to reduce the cost of fuel to only one half. He added:

"I have been through your city pretty thoroughly in the last three or four days and am delighted with it. Erie is (of about the same population—35,000—but you have more than twice as many business places. You have a very smart, active, growing town."

A vote of thanks to the gentlemen, for their remarks, was passed.

Considerable discussion arose, suggested by Mr. Adams's $1.90 coal. Mr. Stearns guaranteed that if they'd give him a block company with $200,000, he would lay down a fuel in Los Angeles that should beat coal at $1.90 a ton. This proposition created much talk and some excitement. Mr. Stearns would not tell what the fuel was to be. He expiatated on the climate and advantages of Los Angeles for manufacturing. He desired to root out every real estate man in the city—tar 'em all higher than if they kept saloons.

Col. Boyce remarked that the real estate men are an enterprising set, and have done more to make Los Angeles known throughout the world than any other agency except the newspapers.

As to coal, Mr. Scott remarked that the Gallup coal recently introduced here, and burned to the extent of 200 tons a day by the A. & P. R. R., costs about $2 per ton at the docks. The freight for hauling it 700 miles is $8.10 per ton.

Mr. Spencer stated that the mill-owners at Daggett offered the railroad $10 a ton for 600 tons a month, but the railroad refused, and charges $12. He also remarked that Lieut. Wheeler's United States Coast Survey assigns a great deposit of petroleum to this valley.

Mr. Burton stated that the Second street cable railroad company are bright sparklers, and making a great saving.

UNDER THE WHEELS.

A Fatal Railroad Accident on the Desert.

Thomas S. Nuckalls, a young man belonging in San Luis Obispo county, where his brothers and sisters reside, was returning from Arizona, on W. L. Vail's special cattle train, which arrived here yesterday. Wednesday night, whilst the train was leaving Cactus station, twenty-five miles this side of Yuma, in the Colorado desert, W. L. Vail, E. L. Vail, the deceased, and another man, got on the forward cars, being fearful of missing the caboose, as the train was leaving rather fast. In endeavoring to make their way back to the caboose, the deceased miscalculated the distance between two cars, and fell on the track. The train was stopped as soon as possible, and the unfortunate man was found dead, one-quarter of a mile down the track, with one hand almost severed from the arm, one foot and one leg crushed, and several other severe injuries. Walter L. Vail brought the body to Los Angeles, and an inquest was held on the remains yesterday afternoon by the Coroner. W. L. Vail will make a strong protest to parties about the Southern Pacific Railroad Company allowing trains to start at the rate of speed they were going, after coming to a temporary halt at any place, rendering it almost impossible for cattlemen who are inexperienced railroaders to catch the caboose on the fly, as it rushes by. The jurors found a verdict of death by "accidental slipping between two cars while in motion." The deceased will be buried here.

FIRE ON THE RAIL.

A Pullman Car Burned to Ashes in a Few Minutes.

William P. Merrill and wife, and William Sherman and wife, of Milwaukee, Wis., arrived here last Tuesday directly from the City of Mexico, and they gave a most thrilling account of the burning of their Pullman car, about sixty miles east of El Paso. The gentlemen named are prominent in business and social circles in Milwaukee, and their statement may be relied on as correct. Yesterday a reporter of the TIMES interviewed them at the Johnson Mansion, where they are staying. Their statement is given here for the first time, as there seems to have been some attempt to suppress the fact. The car in question was discovered to be on fire by Mr. Sherman, who, being in bed with a severe headache, was sleepless, at about 2 o'clock on the morning of the 31st of January, as the train was approaching El Paso from the east. Mr. Sherman seized the bell-rope to ring an alarm. The rope parted, but the conductor noticing that some one was trying to signal the engineer, himself gave directions to stop the train. The engineer, on looking back, saw the flames bursting out of the burning car. The train was composed of seven cars—all Pullmans. From the giving of the first alarm until the last passengers left the car by the window there was not more than three minutes of time. Before the train could be fully stopped, the passengers, rudely awakened from their sleep, began jumping from the burning car, and it was a miracle that none were seriously injured. The twenty-one passengers on that car lost all their personal effects, escaping in their night-clothes, and although they were generously supplied with necessary articles of clothing by the more fortunate occupants of the other cars, yet they were a motley dressed crowd until they reached El Paso. The actual loss in jewelry, money and clothing destroyed by the fire was over $8000, according to a statement made and signed by the parties at the time. The cause of the fire was an overheated stove in the front of the car. Whether the losers will ever realize anything from their claim against the railroad company is to be determined in the future. The officers of the train did all in their power to save the passengers and to make them comfortable.

ELECTRICITY.

What Has Been Accomplished on This Coast—Prospects Elsewhere.

Geo. H. Roe, Secretary and General Manager of the Electric Light Company in San Francisco, is on a brief business visit to this city, and meeting a TIMES reporter yesterday, kindly consented to give some information as to the progress of electric science.

"What has been the result of your efforts to introduce the electric light in San Francisco?" was the first query.

"There is no doubt that San Francisco can be economically and successfully lighted by electricity," was the reply, "but we have not yet been able to convince the Board of Supervisors that such is the case. We erected a number of masts two years ago and lighted up a portion of the city in a manner most satisfactory to all the citizens. When bids were asked for the public lighting of the streets ours was $8000 less than that of the gas company, but it was awarded to the latter corporation. In a private way we are making good headway. Already some five hundred stores in San Francisco are lighted by electricity."

"How is it in the interior towns?"

"San Jose is wholly lighted by electricity and it is very satisfactory to the people there. Sacramento is partially lighted by electricity, and we are gradually increasing our business there. The result in this city is very gratifying to us. Los Angeles is one of the best lighted cities in the country and the people certainly would not be at all willing to return to the old method of street lights."

"Is electricity gaining much in favor in the Eastern cities?"

"Very rapidly. Already over five hundred cities and towns are either wholly or partially lighted by electricity. Albany uses the electric lights only. Boston is partially lighted in the same way. Detroit has entirely discarded gas. St. Louis is falling into line, but in Chicago the gas companies have thus far proved too powerful for us."

"What is the prospect for the incandescent light?"

"There is no doubt that the incandescent light is to be the light of the future. There only remain some details to perfect. At present it is impossible to distribute the incandescent light for any distance, but all the great inventors are now giving the matter their attention and unquestionably the problem will soon be solved."

"What do you think will be the ultimate triumph of electricity?"

"Undoubtedly its successful application to street railroads. This use of it has, indeed, already been found practicable. There is an electric road already in successful operation in Toronto, and another in Cleveland. Of course the system can be greatly improved, and that is what the inventors are giving their attention to now. The electric railroad is superior to the cable road in many respects. The loss by friction amounts to nothing, and this is a great saving. Electricity is in every respect the most economical motive power, and will eventually supersede everything else. In San Francisco we are making arrangements to furnish power to run all kinds of small machinery, including printing presses, sewing machines, elevators, etc. We can furnish power at a very low cost as compared with the old method, and our plan is coming much into favor. I am satisfied that the next ten years will see a marvelous advance in the use of electricity."

MARRIED.

Miss Paula Chard and W. F. Ball are Made One.

Last night the residence of C. Chard, No. 224 North Fort street, was brightened by the marriage of Miss Paula Chard to W. F. Ball, a young business man of this city. The ceremony, which was performed by Rev. Elias Birdsall, was witnessed by the relatives and a few of the intimate friends of the happy couple. After the ceremony all present sat down to an appetizing collation, to which ample justice was done.

The wedding presents, which were numerous and costly, consisted of silverware, glassware and many other articles useful and ornamental.

Both bride and groom have resided in this city for several years, and have many friends who wish them long years of wedded bliss. After a short wedding tour, they will return to this city and wrestle with housekeeping.

Following is a list of those present: Mr. and Mrs. A. Ball, Mr. and Mrs. S. Ball, J. H. Humphreys, R. Wade, T. Woods, Mr. and Mrs. C. Chard, Miss M. Woods, C. Chard, Mr. and Mrs. H. O. White, Judge Ranney and wife, Dr. Hastings, Mr. and Mrs. Post, Mr. and Mrs. Wilson, Mr. and Mrs. Newbro, Dr. Will Lindley, Mr. and Mrs. Day, Mr. and Mrs. Kellogg, Mrs. Noble (Ontario, Cal.), Mr. and Mrs. Zech, Miss Cora Bradley, Miss Lena Meyer, Mr. Gamble, Miss Gamble, Miss Edna Gamble, Mrs. Boyer, Miss L. Jeffries, Mr. Gould, Mr. and Mrs. Merriam, Mr. Harmon, Mrs. Judge Masterson (Toronto), Mrs. Meramontis, Mrs. Ball.

THE ORANGE MARKET.

Indications of Lower Prices Impending—Work of the Union.

Just at present most Eastern markets are receiving more oranges than they can sell to good advantage, and maintain prices. The fair East is well supplied with foreign oranges, and prices are ruling low. The importers in New York count on getting $2 per box for best grades of Sicily fruit, when California oranges are selling in Chicago or St. Louis at $3 75. Some of our bright seedling fruit sells for $2 50 or less in the Western and Northwestern States the imported fruit cannot compete with it.

The Orange Growers' Union had quotations yesterday from Chicago, St. Louis and St. Paul as follows: Smnity, $2; choice, $2 50; fancy, $2 75 to $3; navels, $4 to $4.50. Fancy and navels are bright, clean fruit. These prices ruled only for the day, with large consignments on the road, and prices must necessarily drop. If all oranges were consigned through the Union—so say their Eastern agents—the above prices and even better prices could be maintained.

Lemons are dull, with an upward tendency. The Union agents are making a specialty of presenting our lemons for their real value.

STILL WORKING.

Further Echoes from the Perkins-Baldwin Case.

The Perkins-Baldwin trial has not ceased to wriggle yet, and, though the noise has ceased, there is some Sullhunting being done, squinting toward a new trial. It is understood that a big effort is being made to get hold of some utterance of jurors which might give grounds for a new trial. Some of the jurors complain that during the trial they were continually hounded by suspicious-looking strangers, trying to get some expression of sentiment. This persecution was so persistently kept up that some of them had to shut themselves up all the evenings to escape it.

Mr. Hosmer, a witness in the trial, and husband of Miss Perkins's principal witness, states to a TIMES reporter that he and his wife were both approached several times before the trial by Unruh, Collyer and others, and given to understand that it would be to their decided advantage, pecuniarily, not to go on the stand for Miss Perkins.

Baldwin is still in the city—or was yesterday. Mr. and Mrs. Perkins and Miss Louise have returned to Fulton Wells.

Dr. J. A. Arbeely.

For the benefit of Asbury M. E. Church, East Los Angeles, on Wednesday evening, March 3, at 7:30 o'clock, Dr. A. J. Arbeely will give a lecture on the Holy Land, his native country. The Doctor, with his brother, will appear in the old patriarchal costume and present the famous Mohamedan sword exercise

Pasadena Lots.

Thirty-four business lots will be sold Saturday, March 6th, in the very center of Pasadena. Sale absolute, terms cash, and title perfect. This property will be sold by the trustees of schools. Bidders take the 8:45 train for Pasadena.

Opening of First Street.

There will be a meeting of all persons interested, for or against, in the proposed opening of First street this evening at 7:30 o'clock, at the office of Architect Young, in the Nadeau block.

To Real Estate Dealers.

The two lots on Twelfth street near Main to be preemptorily sold for cash, at auction, on Saturday, offer a very fair chance for a handsome speculation. See advertisement.

THE RAILROADS.

Status of the Rate War, and Other Notes.

B. L. McClain, Travelling Passenger Agent of the Chicago and Alton, with headquarters formerly here, but now in Kansas City, came down from the North yesterday, and will pass a couple of days among his many Angelo friends before returning to the City of Canned Corn Beef.

H. B. Wilkins, General Passenger Agent of the California Southern, is in the city.

The Southern Pacific sent out another of its "cannon-ball" orange trains, yesterday, with seventeen cars, all bearing the yellow placard of the Orange-Growers' Protective Union. The train went by the northern route.

The California Southern started out a sixteen-car orange train yesterday, to be whisked through by the shortest transcontinental route.

It is understood that the Union Pacific is going to give Assistant General Western Passenger Agent Gowan an assistant in the Los Angeles office. The report states that the assistant will be down from San Francisco next Monday.

It has been rumored that in the heat of the rate war some of the transcontinental agents here have been offering street commissions. An attempt to trace the rumor to a foundation of fact was vain.

There was a landslide in the Cajon Pass, night before last, not of any considerable depth. It has been cleared away, and trains are running on time.

ANOTHER REDUCTION IN RAILROAD RATES.

A reduction of $5 on each class of tickets, except first-class unlimited, was made by the competing Southern Pacific and Atlantic and Pacific lines yesterday. The rates quoted were:

First class, limited, to Chicago, $42.50; third class, $32 50. To St Louis, first class, limited, $37.50; third class, $27 50. To Kansas City, first class, limited, $30; third class, $20.

The ticket agent at the Southern Pacific depot reported a great stimulus to travel by the cutting. Not less than eighty people left for the East yesterday.

In freight rates there have been as decided reductions as with passenger rates. The only difference is that, instead of such absolute horizontal reductions, the agents are disposed to dicker with shippers, and secure their patronage at almost any sacrifice.

It is a little odd to see such fierce competition carried on between two lines of road that sell their tickets from the same office, employing the same agent, as is the case at the upper depot.

A reporter of the TIMES called upon Superintendent Hewitt of the Southern Pacific, and asked his opinion of the general drift of the railroad war. "I don't like it," he said frankly. "I am afraid it is going to be a bad thing for this country. It will bring out here hordes of impecunious people from the East, who have hitherto been unable to come. You know this is no country for a poor man. There are more here now than can hope to find work. Why, I have had not less than ten applicants to-day, and every day it is the same. If the gates are opened for the unemployed of the East, they will pour in and the country will have to support them in some way."

HEAVY DAMAGES.

Miguel Leonis Asked to Pay for Scaring a Woman.

Complaint was filed in the Superior Court yesterday by Francisca and Pietro Alladdio, against Miguel Leonis, charging that "upon the 18th day of August, 1885, the defendant, Miguel Leonis, came to the dwelling house and residence of the plaintiffs, at Leonis's place, upon the Los Angeles river, when plaintiffs were at their supper in said house, and maliciously kicked in the door of said house, and with loud voice maliciously threatened to kill plaintiffs if they did not leave the premises, and at the same time discharged into the air while standing in the doorway five times in rapid succession a deadly firearm known as a revolver."

That, by reason of the wilful and malicious action of said defendant, the plaintiff Francesca, wife of plaintiff Pietro Alladdio, suffered much pain in body and mind, became greatly frightened, fainted, and was thrown into a violent fever, and remained sick in bed therefrom for two weeks, and has suffered from the effects of said fright to the present time.

"Wherefore plaintiffs demand judgment for the sum of ten thousand dollars."

The complaint is signed by Williams & McKinley, attorneys for plaintiff; Horace Bell, of counsel.

Fast Time East.

Only six days from Los Angeles to New York via the "Sunset Route." Through Pullman Palace car connection, and only line running through Emigrant Sleeping cars to New Orleans without change. Rates always as low as other lines to all points in the Northeast.

CONSUMPTION

And all the various diseases of the

HEAD, THROAT AND CHEST

Including the

EYE, EAR AND HEART

Successfully treated by

M. HILTON WILLIAMS, M. D.,

M. D., M. C. P. S., O.,
N. MAIN ST.,
Next Diamond House, Los Angeles, Cal.

All diseases of the respiratory organs treated by the most improved Medicated Inhalations, thus bringing the remedies into direct contact with the disease part. These are in all cases combined with proper constitutional remedies for liver, stomach, nervous system, blood, etc. The efficacy of this system of practice is attested by the fact that out of 5500 persons treated in Los Angeles during the last two years only twelve have died, and those had treatment only with a view of prolonging life.

CHRONIC BRONCHITIS

Bronchitis is an inflammation of the mucous membrane of the bronchial tubes, and is one of the most common and most pulmonary affections. Chronic bronchitis more often appears later in life. When a cold settles on the lungs the disease either re-ds in bronchitis or pneumonia. If it ends in bronchitis it usually p sses off as a cold on the chest, and still the patient does not feel entirely well. He feels tired and languid, and is incapable of taking his usual exercise, and after a few experiences a shortness of breath, with more or less warmth in the palms of his hands and soles of his feet, appears, accompanied by an expectoration of thick mucus, followed by a hectic flush, loss of flesh and fever, night and night sweats continue, when the patient assumes all the appearances of having a genuine case of consumption. But this is really catarrh of the lungs or chronic bronchitis.

In the later stage of the disease the mucous membrane of the larger bronchial tubes softens, while in the smaller tubes and air cells the mucous membrane becomes congested and inflamed. There are no cavities nor tubercles in the lungs, but merely a swelling of the larger bronchial tubes, and death takes place from obstruction of the bronchial tubes and air cells of the lungs. The patient dies from exhaustion and suffocation, being unable to expectorate the mucus which accumulates in the passage leading to the lungs, which in some cases is sticky and small in quantity, but more commonly copious, of a light straw or yellowish color. Occasionally streaks of blood make their appearance in the mucus and at times there is a disagreeable smell. Persons thus afflicted are liable to take a cold, at which times the mucus becomes clear and frothy, and it is not uncommon for the case that the patient dies in one of these attacks.

Humid bronchitis (from humor,. to be moist,) is so called from the profuse quantities of watery secretions which c mes from the air passages of the lungs. At times it becomes quite ropy, like the white of an egg. This form of disease usually attacks old people.

Dry Bronchitis.—This disease, the very opposite of the above, is a very common affection. Very many people who re.ard themselves quite healthy are to-day under its influence and are slowly but surely becoming the victims of this treacherous complaint. This is the most insidious of all pulmonary diseases. There may at first be a slight hacking cough, and an expectoration of a bluish white mu us. And herein lies the danger. This mucous, inhabiting the air cells of the lungs, being difficult to raise, after a time becomes solidified, permanently obstructing portions of the lungs, causing shortness of breath and a feeling of oppression on the chest, particularly after some slight exertion. After a time the cough becomes more severe and comes on in paroxysms, and as the shortness of breath increases it almost assumes the character of asthma. The mucous membrane also becomes more and more thickened, which arises from the frequent fresh colds, and the patient at last becomes fully aware of the terrible changes that have taken place, and the inevitable results that are to follow.

Inhalation is the only system which will cure these diseases, and yet the treatment of the lungs are entirely different. In the one we must allay the irritation, while in the other we must stimulate a healthy action.

This will convince any one of the necessity of fully understanding the systems of Medicated Inhalations in the treatment of the various diseases of the respiratory organs, for when properly applied there is no system of medicine to be compared with it.

Those who desire to consult with me in regard to their cases had better call personally for an examination, but if impossible to do so, may write for a list of Questions and Medical Treatise.

Address

M. HILTON WILLIAMS, M. D.,
273 North Main street, Los Angeles, Cal.
Office hours—From 10 a. m. to 4 p. m. Jun28

Excursion to San Diego

WILL LEAVE LOS ANGELES

Tuesday, March 2
